MUKESH PATEL SCHOOL OF TECHNOLOGY MANAGEMENT & ENGINEERING

DHVANI HITESH TANDEL

MBA + B.Tech in Computer Engineering - 2029

Date of Birth: 2006-06-12

About

Second-year MBA + B.Tech Computer Engineering student at NMIMS with interests in technology, digital media, and creative problem solving. Experienced in event management, content creation, and collaborative leadership through student organizations and technical projects.

Website: Dhvani Tandel | Portfolio

Address:

8/92 Kadri Park, near Gokul Divine

Irla, Vile Parle West

Mumbai , Maharashtra - 400096

Contact: 9930568609

Email: dhvanitandel7@gmail.com

Education

SVKM NMIMS Mukesh Patel School of Technology Management and Engineering — **2024-2029**

MBA+B.Tech in Computer Engineering

CGPA : 8.16/10

Jasudben M.L School — **2022-2024**

ISC : 90.1%

LPHS(Lilavatibai Podar High School) — **2022**

CISCE (ICSE) : 89.9%

Projects

-Neuropath — AI Skill Gap Analysis & Learning Path Planner

Python, Flask, Next.js, React, React Flow, Gemma 3, MiniLM, sentence-transformers

- Co-developed a hackathon AI system that extracts and normalizes résumé and job-description skills using Gemma 3, semantic embeddings, taxonomy mapping, and rule-based fallbacks.
- Built skill-family gap analysis and prerequisite graphs with topological sorting to generate ordered learning paths, with evidence-based explanations and an interactive skill graph.

-VoltRoute — EV Route Planner & Charging Slot Booking

Next.js, React, TypeScript, SQLite, TomTom APIs

- Built a full-stack EV platform with battery-aware route planning, charging station discovery, and slot booking.
- Implemented secure authentication, booking validation, notifications, and a station provider dashboard to manage chargers and requests.

-Drishti — Driver Drowsiness & Distraction Detection

Python, OpenCV, MediaPipe, YOLO, Flask, Next.js

- Built a webcam-based monitoring system to detect eye closure, yawning, head movement, and phone use using temporal analysis.
- Developed a live dashboard with browser camera streaming, driver status alerts, and monitoring metrics.

-Syllabeat — Android Learning App

Kotlin, Jetpack Compose

- Developed an Android app for NMIMS students that turns engineering concepts into educational songs.
- Implemented multilingual lyrics, offline song playback, synced lyric highlighting, topic selection, and interactive quizzes.

-RESERVE — Food Donation Android App

Kotlin, Jetpack Compose, Material 3, Firebase

- Developed an Android app connecting food donors with NGOs through authentication and surplus-food listings with food type and quantity.
- Implemented NGO donation requests, donor acceptance, request management, and real-time status updates.

-Divara — AI Fashion Intelligence

React, TypeScript, Node.js, Express, Prisma, SQLite, Ollama

- Co-developed an AI personal styling app with outfit photo analysis, digital wardrobe management, and personalized recommendations.
- Integrated local vision-based clothing recognition and rule-based outfit scoring for color harmony, occasion, and weather.

- **Laser Home Security System** – Developed a basic security system using laser detection to trigger alerts when motion interrupts the beam.

-**Ultrasonic Packet Feedback for Autonomous Driving** – Used ultrasonic sensors to detect obstacles and provide feedback for navigation.

-**MediKey-**A specialized digital solution for medical data security and accessibility, ensuring seamless health record management.

- implemented medikey using web programming . Java and Backend using sql.

-**VOTAMATIC** : **Electronic Voting Machine** – Built an electronic voting model demonstrating secure vote input and counting along with a live website demonstrating the realtime votes.

-**Flappy**- Basic Bird game using java and html

-**Smart Staircase** - built a ataircase using led lights that is controlled using a microcontroller and turns on the lights when motion is detected in a sequential order based on the timing.

Technical Skills

Languages: Python, C++, Java, Kotlin, TypeScript, JavaScript, R, HTML/CSS
Web and mobile: React, Next.js, Node.js, Express, Flask, React Flow, Jetpack Compose, Material 3
Databases and backend: SQLite, SQL, Firebase, Prisma
Computer vision and AI: OpenCV, MediaPipe, YOLO, Ollama, Gemma 3, MiniLM, sentence-transformers
Data and visualization: Pandas, NumPy, Matplotlib, Excel
Tools and APIs: Android Studio, GitHub, AutoCAD, Google Cloud API, TomTom APIs

Creative and Professional Skills

- Digital content creation
- Editing and creative ideation
- Event planning and coordination
- Communication and teamwork
- Organizing and Leadership

Interests

- Content Creation and writing
- Editorial work and Literature
- Technology and innovation
- Event planning and concept development

Achievements and Positions of Responsibility

- Head of Creatives , C'est La Vie, JML
    - Took care of the whole creative and decor part assigning tasks and budgeting.
- Subhead , Digital Media, IEEE MPSTME Student Chapter
    - Contributed in handling creative departments, socials and editing.
- Current Joint Secretary , EX Sub-head ,Digital Media and Creatives, IEEE COMPUTER SOCIETY MPSTME Student Chapter
    - Contributed in handling creative departments and giving a technical presentation.
- Executive + Subhead, Digital Creatives, Editorial Board MPSTME (Student Council)
    - Contributed to planning and organizing events such as Blind Date with a Book, Rahasya (paranormal talk event), and The Editorial Project featuring open mic and creative showcases.
- Executive, Sattva (college cultural fest)
    - Helped in organizing performing arts event.

Certificates

- **Develop with Python for AI and Machine Learning** — LinkedIn Learning
- **Deep Learning with TensorFlow: Insights and Innovations** — LinkedIn Learning
- **AI Agents for Cybersecurity** — LinkedIn Learning
- **When to Use AI (and When Not To): Practical Judgment at Work** — LinkedIn Learning
- **RAG Systems & Agentic Workflows with Pinecone and LangGraph** — Board Infinity (via Coursera)
- **Active Listening for Better Leadership Communication** — LinkedIn Learning
